

Why Choose SMT?

- 30+ Years of Precision Manufacturing Expertise
- 100% On-Time Delivery
- Zero Defect Quality Performance
- Annual Certification for ISO 9001/ISO 14001
- Fully Integrated MRP System
- Intuitive and Collaborative Partnership Experience
- High to Low Volume Capabilities
- Flexible and Creative Engineering
- Annually Certified Metrology Equipment
- Just in Time and EDI Capabilities

OUR MISSION

SMT succeeds because our customers succeed.

We are part of a much larger community to which we are compelled to act responsibly. We act responsibly when we help protect our environment, provide economic opportunity fairly, work safely, and consider the person in all of our business affairs. This allows us to achieve our vision and to provide opportunity for all of the SMT associates that follow us.

Critical Assemblies and Components You Can Count On

COIL WINDING

Coil Winding

SMT utilizes state of the art winding equipment to produce a multitude of electromagnetic coils. Precision wound coils can be produced using various wire gauges and materials. Coils can be fully encapsulated if needed.

Capabilities

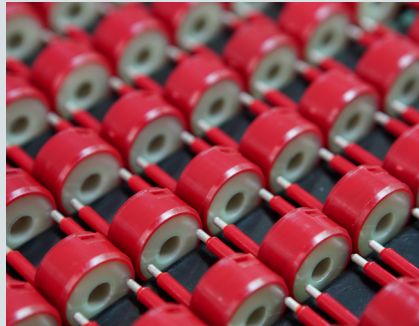

- Wire gauges from 18 AWG to 46 AWG
- Capable of multiple termination methods
- In house bobbin molding
- 100% electrical testing performed on all coils
- In house coil encapsulation

Technologies

- Single to Multi Spindle Capable
- Termination data logging
- Welding and Soldering Termination
- Heavy duty Drives
- Blade, Wire and IDC Interconnects
- Mechanical and Electrical Insulation Removal
- Trapezoidal and Orthocyclic winding
- In line Automatic Wire Tensioning and Feedback
- Up to 3" Coil Diameters
- Dereeler Controls

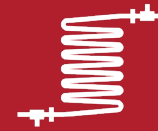

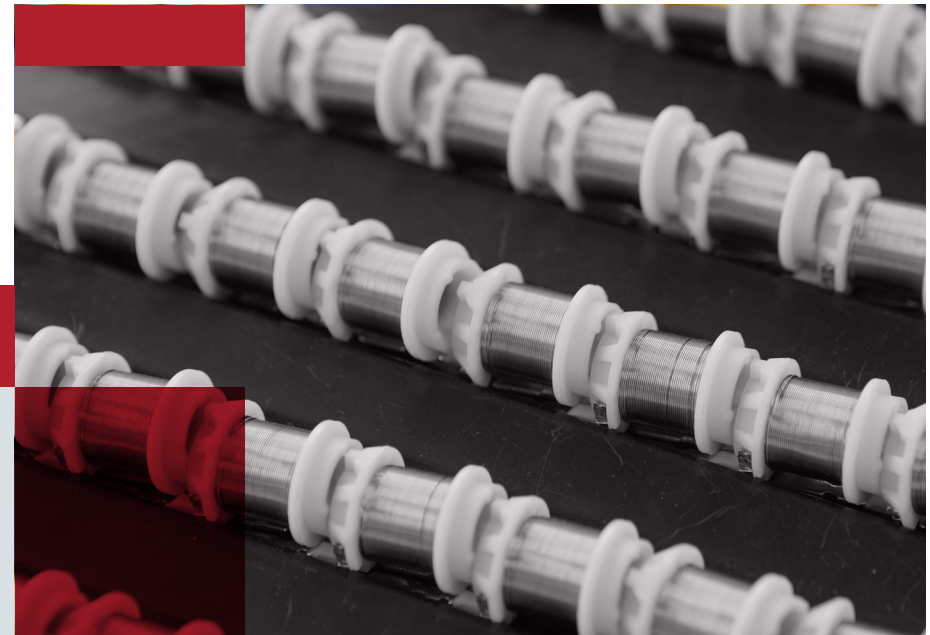

SMT provides customers with total solutions to meet and exceed demanding product requirements.

Take Your Products to Another Level

Working together with SMT, customers will:

- Reduce engineering and development time and cost.
- Improve operating efficiency with on time delivery and improved quality.
- Discover a supportive and innovative partner that cares about your company's goals.
- Find a dedicated team that works hard to help you succeed.

Better collaboration means better products.

SMT can support your coil winding needs.
