

Why Choose SMT?

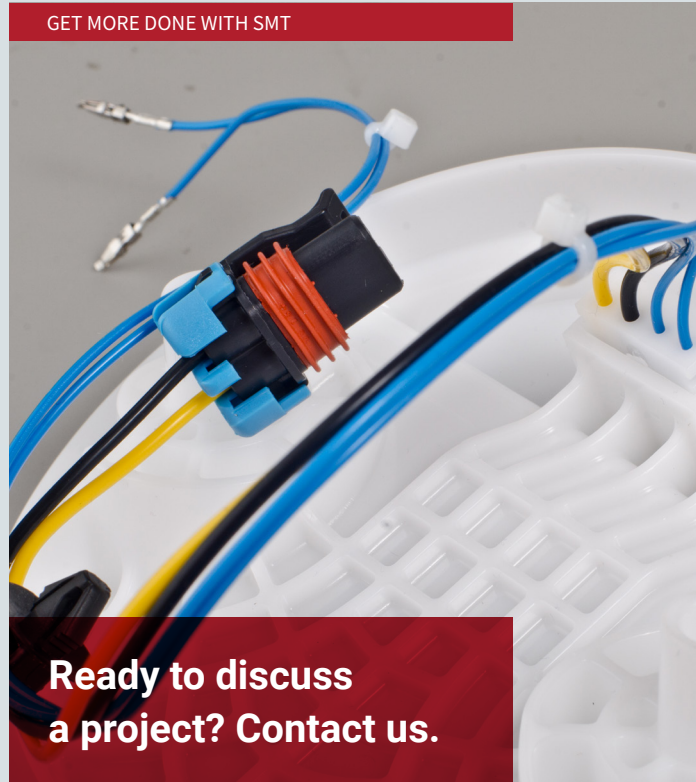

- 30+ Years of Precision Manufacturing Expertise
- 100% On-Time Delivery
- Zero Defect Quality Performance
- Annual Certification for ISO 9001/ISO 14001
- Fully Integrated MRP System
- Intuitive and Collaborative Partnership Experience
- High to Low Volume Capabilities
- Flexible and Creative Engineering
- Annually Certified Metrology Equipment
- Just in Time and EDI Capabilities

OUR MISSION

SMT succeeds because our customers succeed.

We are part of a much larger community to which we are compelled to act responsibly. We act responsibly when we help protect our environment, provide economic opportunity fairly, work safely, and consider the person in all of our business affairs. This allows us to achieve our vision and to provide opportunity for all of the SMT associates that follow us.

**Critical
Assemblies and
Components You
Can Count On**

INJECTION MOLDING

Injection Molding

With press tonnages ranging up to 330 Tons, SMT can meet most precision molding needs. Insert and overmolding components and assemblies can be provided using filled and non filled engineering grade resins as well as various grades of liquid silicone materials.

Capabilities

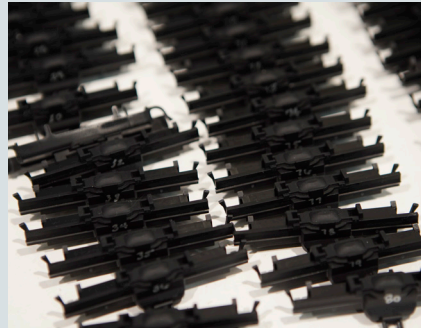

- Vertical and horizontal molding machines
- High volume to low volume capable
- Insert, silicone and reel to reel molding including encapsulation
- Design and development of tooling for best in class repeatability
- Single to multiple cavity capabilities including prototyping
- Multiple color and additive options
- Metal to plastic conversions

Thermoplastic Materials

- PA
- PA6
- PA66
- PA12
- PBT
- POM
- PPA
- PPS
- PC
- TPE
- HDPE
- PP
- PVC
- Teflon
- Silicone

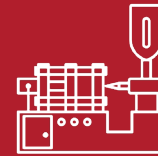

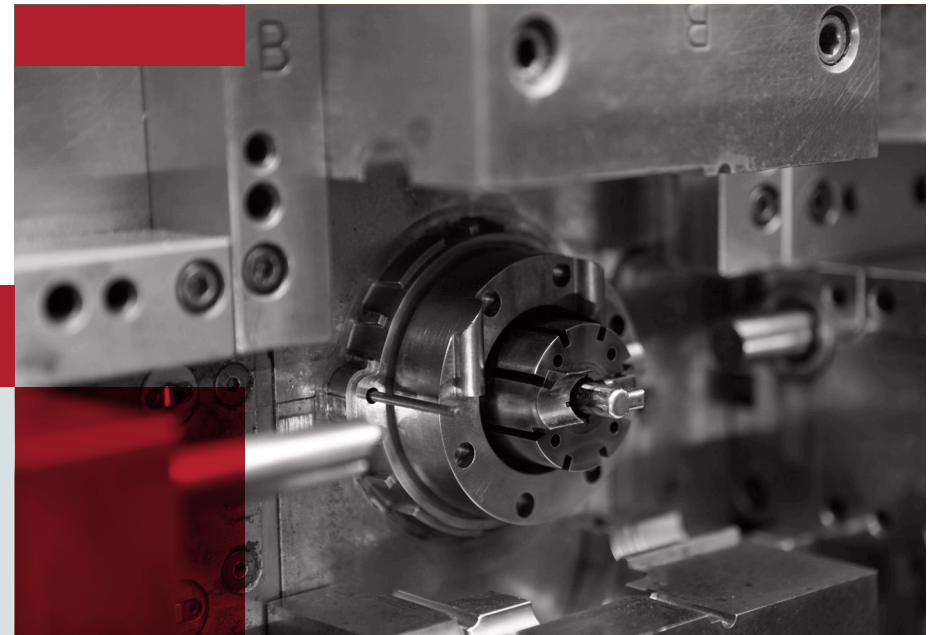

SMT provides customers with total solutions to meet and exceed demanding product requirements.

Take Your Products to Another Level

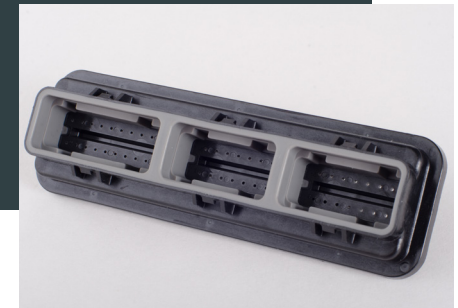

Working together with SMT, customers will:

- Reduce engineering and development time and cost.
- Improve operating efficiency with on time delivery and improved quality.
- Discover a supportive and innovative partner that cares about your company's goals.
- Find a dedicated team that works hard to help you succeed.

Better collaboration means better products.

SMT can support your injection molding needs.
